

## **BLAST**

### **Major activities for the past year include:**

1. Arrangement and organizing the sound system and music, holding solo and band performances on ORION's night (fresher's party)
2. Jamming sessions to spread music and nurture new talents, preparing them to perform on stage.
3. Collectively organized the performances during the college technical and cultural fest PANACHE.
4. Performance during the new year evening.
5. Band participation in a competition held at VIT, Jaipur.
6. Special performance at Celebration's Mall on friendship day.
7. We have held guitar tutorial classes in our hostel to teach the art of playing guitars. As a result some fellow students have picked up the talent that was previously hidden.
8. Motivating fellow students to participate more and more into music activities held in the university.

### **Plans and proposals for the current semester:**

1. A proposal has been forwarded to the management for holding a rock band competition with retro rock music theme to be held in the first week of semester, the proposal has been finalized and the evening is being worked on.
2. We have planned to hold a cultural night in November-mid preferably November 14<sup>th</sup> evening. This night would have competition in categories like solo and bands, only for campus students. The best part about the event is that to spread music all around the campus among all, we have planned to hold a faculty antakshari on the same night. This would eventually make the music culture grown in SPSU and may be followed in the coming years.
3. A Proposal for buying certain new instruments (like a drumset, a keyboard etc.) and providing a music room for the same has been forwarded. The management has positively responded to our proposal and we are working on it.
